

## CAPELLINI STANDARD PRODUCTION

# Metalworking

Turning electrospindles

**Over 30 years of custom-built spindle construction shapes the evolution of our standard range, offering quality, long-lasting, precision spindles and faster availability**

8 lines of spindles  
to suit your applications

*To win the challenge of quality*

# Metalworking

## Turning electrospindles

Electrospindles for high-dynamic and high-level automation turning machines.

### Turning electrospindles

Commercial Code	Max Power S1 [kW]	Max Speed [rpm]	Interface	Through hole [mm]	Shape	Dimensions [mm]
STR0025AE00	35	2500	ASA 8"	Ø 92	Cylindrical	Ø 350 L 841
STR0050AE00	25	5000	ASA 6"	Ø 60	Cylindrical	Ø 296 L 650
STR0050BE00	17	5000	ASA 5"	Ø 60	Square	295x280 L 670

Available optional supply  
Hydraulic brake system (Single or double clamp)

*Bearings lubrication*  
Lifetime grease lubricated

Our turning electrospindles are designed and manufactured to maintain high performances, durability and reliability even when used at max speed for a long time.

*If you do not find the spindle you require, please do not hesitate to get in contact with us*

Capellini has been designing and manufacturing electrospindles for 30 years. A relentless search for new solutions has led the company to develop increasingly interesting and innovative products. That is why Capellini has grouped together all its most marketable and successful products into 8 families, identified by different colours:

-  Woodworking
-  Working light alloys
-  Metalworking - Milling electrospindles
-  Metalworking - Turning electrospindles
-  Metalworking - Motorspindles
-  Metalworking for grinding - Belt-Drive spindles
-  Metalworking for grinding - Electrospindles
-  Metalworking for grinding - HF electrospindles for inner grinding

**We make your life easier!**
